“ I do not know what we would do without Griswold’s extra help to care for our 91 year old father. Their workers are professional, caring and go the extra mile to make my father’s days more enjoyable.”

Jean’s Story

In 1982, Dr. Jean Griswold founded our company and helped pioneer an entire industry.

She was a true visionary, establishing one of the most successful non-medical home care organizations in the country despite her Multiple Sclerosis diagnosis. Over 40 years later, her legacy lives on across 170 locations in 31 states! We’re proud to be backed by four decades of integrity, compassion, and experience.

Jean was an extraordinary leader and remains an inspiration to all who hear her story. Her values live on in Griswold today.

Live assured that your loved one is being cared for so you can go on about your own life without feeling the weight of worry.
